

**CAN YOUR RIMFIRE SUPPRESSOR
SHOOT 1000 to 2000 ROUNDS*
AND BE EASILY DISASSEMBLED?**

The DAMKO Rimfire Suppressors Can!

DAMKO'S all new rimfire suppressors incorporate revolutionary patent pending features, the shooter will certainly notice. DAMKO Rimfire Suppressors offer the shooter easy suppressor disassembly even after shooting 1000 to 2000 rounds*, unheard of with small caliber rimfire suppressors.

Featuring a Patent Pending diffuser, stainless steel sleeve and a titanium baffle setup, DAMKO Rimfire Suppressors are the high-durable option in the rimfire category. While in the field or at the range, you will experience impressive noise reduction when utilized on rimfire pistols or rifles. This compact build provides optimal balance for your chosen firearm. A must-have for .22LR shooters.
